

The CRJ200GLS

The CRJ200GLS is a unique refurbishment of a regional jet centered on quality, style and efficiency second to none in the aviation industry.

Whether it is function, flair or a comfortable combination of both, the CRJ200GLS boasts the finest amenities available in aviation. Interior features such as luxurious executive seating, custom wood veneer and individual switch panel controls are designed and impeccably placed throughout this 16-seat Aircraft.

Long Range fuel tank modification (STC) has been added to the CRJ200GLS. This addition to the aircraft enables further distance with less landing and refueling stops.

No compromises are taken during the refinishing project.

Serial Number: 7086
